

PETUNIA

- **Plant Name:** Petunia
- **Colors:** White, pink, purple, red, yellow, blue, and mixed
- **Shape & Look:** Soft, trumpet-shaped flowers
- **Fragrance:** Light, sweet smell
- **Sunlight Needs:** Loves bright sunlight and fresh air
- **Growing Season in India:** October to March (thrives in winter & early spring)
- **Lifespan:** Lives for a few months and wilts when summer heat increases
- **Why It Stays for a Short Time:** Cannot survive extreme heat and heavy rain
- **Where It Grows:** Gardens, pots, hanging baskets, and balconies
- **Stem Feel:** Green, soft, and slightly sticky
- **Origin:** Originally from South America, but now grown in many countries, including India
- **Fun Fact:** Butterflies and bees love petunias!
- **Use:** Makes our homes & surroundings look beautiful
